

A valuable DANISH certificate

Agenda

A valuable DANISH certificate

The foundation of DANISH certification lies at the opposite end of the value chain – the customers.

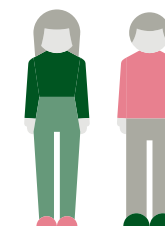

Quality should always be documented, and there are market requirements for independent third-party control. Pay attention to customer requirements and how you can make control visits easier for yourself.

The DANISH Boksen is one way to facilitate a successful control visit.

History and the start

- **Market requirements**
 - Began with the UK in 1998
 - Internationally recognised ISO-standard
- **In 2002, the entire production had to be certified**
 - Internationally recognised ISO standard
 - Agreement with German QS on continued access to the German market (German acceptance of the DANISH Product Standard)

Case story - UK

DANISH Product Standard

Purpose

- Provides 3rd party accreditation of live pig production (ISO 17065:2012)
- Ensures and documents that DANISH-certified pig herds comply with legislation and industry and market requirements
- Focus on **good animal welfare**, **a high standard of food safety** and **clear traceability**

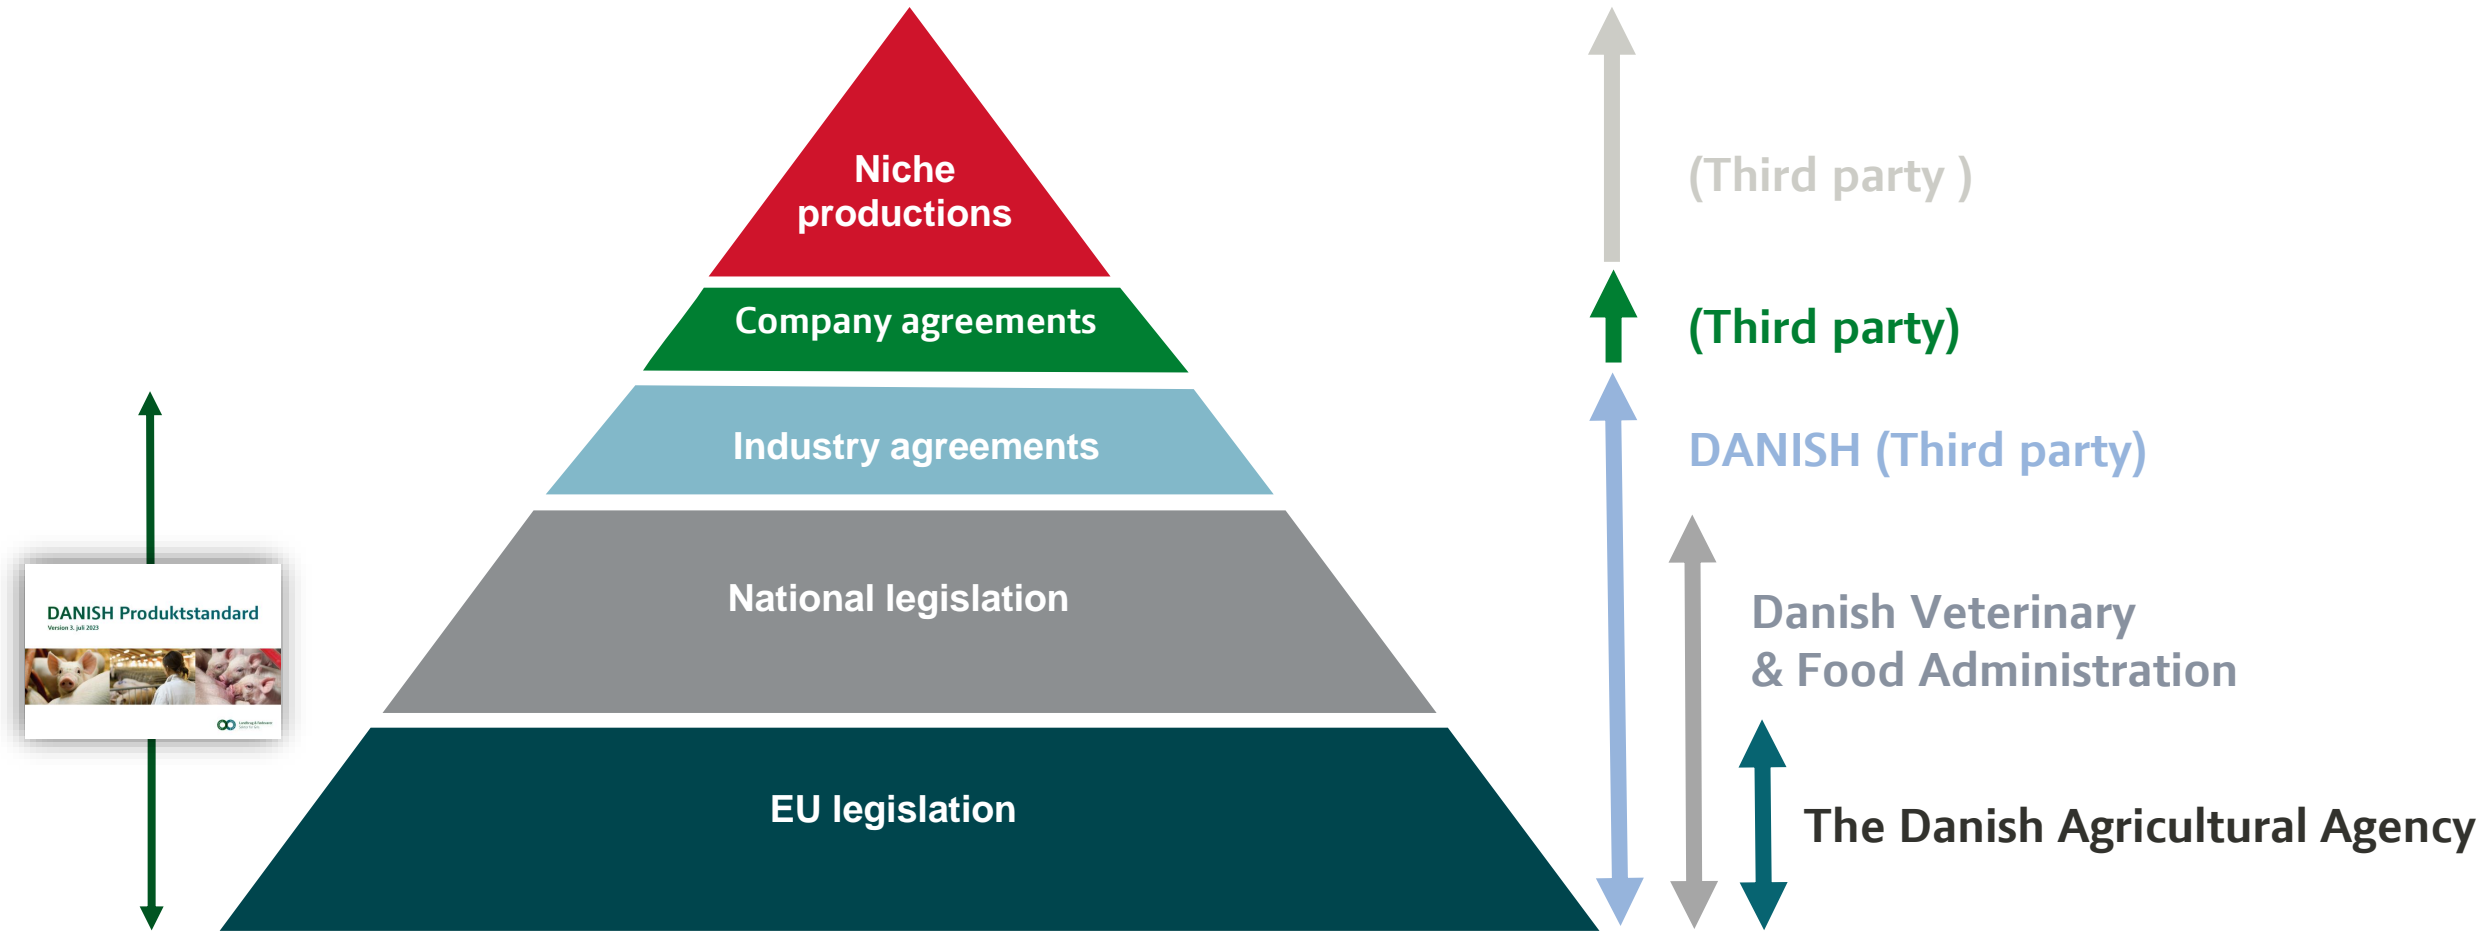

DANISH Product Standard

Facts

- Approx. 2,700 DANISH certificates issued per year
 - Of which approx. 1,000 are audited annually (special productions)
 - The rest are audited every third year
- Announced visits – talk together and prepare
 - 20% unannounced (<48 hours warning)
 - Read what the DNV sends you
